WORLD LEADER IN CASHLESS TECHNOLOGY

**LEADING
THE WAY**

**WITH CASHLESS
TECHNOLOGY FOR
THE AMUSEMENT
INDUSTRY**

LEADING THE WAY IN

24/7

WORLD CLASS EXPERTISE AND SERVICE YOU CAN COUNT ON

1

An Offline Mode

In offline mode, your system keeps working even if your Internet goes down. With Intercard's system, you stay in business – no matter what.

2

Product Know-how

At Intercard, we design and build both our hardware and software inhouse. Since we know how our products work inside and out, if there's any issue, we've got the solution.

3

Offsite Automatic Backup

In business, you have enough to deal with. With Intercard's maintenance free, vendor-hosted system, you'll sleep better knowing that we have your system backed up and you will never lose your data.

4

Secure, Cloud-based Software

Technology changes fast. Stay up-to-date with automatic software updates and know your data is protected with end-to-end encryption.

5

Real Customer Service

LIVE customer service reps – 24 hours a day, 7 days a week! Our technical specialists are always here for you.

CASHLESS TECHNOLOGY

WE'VE GOT YOU COVERED WITH ADVANCED THREAT PROTECTION

NEMS (Nagios Enterprise Monitoring System)

Our NEMS-based system proactively monitors Intercard-deployed hardware and makes notifications to our support team before you are even aware of an issue. These notifications will have specific information allowing Intercard support to resolve issues in an expedited manner because superior customer service is our goal.

“With our NEMS-based system the customer doesn't have to worry about any network problems due to Intercard equipment because we monitor and maintain it 24/7,” says Scott Sherrod, software engineer and CEO of Intercard.

“You get good reliable support that's key for me. If you need something they're more than happy to help you. The pricing is right, they give you all the options and the revenues are up. More money...more fun!”

~ Tony Argery, Owner of Funhouse Entertainment Centers

iREADER SERIES

InterCard's iReaders are the **fastest readers in the market** and are easy to install and easy to maintain. With InterCard's revolutionary cloud technology you can configure and operate an unlimited number of machines at multiple locations from one computer.
